This table displays the total post-charge off recovery amount by program as of the end of each fiscal year. Since data are not available through the end of the most recent fiscal year, the data displayed in 2025 are as of 06/30/2025.

Post-charge off recovery amount is typically defined as the dollar amount recovered via the Treasury Cross Servicing program after a loan has been charged off, however not all these recoveries are due to Treasury efforts.

Loans are charged off if SBA determines no additional principal and interest from the borrower will be recovered via the agency.

Post-charge off recovery amounts are net of recovery related expenses and, therefore, may be negative.

For guarantied loans, the post-charge off recovery amounts reflect the SBA guarantied portion and exclude the non-guarantied portion of the loan.

Post-charge off recovery amounts for a given fiscal year may be adjusted due to data updates.

Guarantied Business, Direct Business, and Disaster loan programs include all loans that are subject to the Credit Reform Act of 1990; which are loans SBA approved on or after 10/01/1991.

The 7(a) and 504 loans in the DELTA and STAR programs are included in the 'All Other' category, not the '7(a) Regular' and '504 Regular' categories, of guarantied business programs.
